11. This is a standardized tactical qualification and rating checklist that will be used to follow the progress of a controller through the training program. All applicable items shall be entered in sections III and IV of DA Form 3479-R. 12. REFERENCES: - Applicable SOP's - Appropriate Equipment TM's - AR 40-8/AR 40-501/AR 95-2 - ARTEP 1-425-MTP - FAAO 7110.65 - FAAO 8200.1 - FAAO 8260.3 - Flips, Charts and IFR/VFR Supplements - FM 1-120 (3-04.120) - FM 3-04.303 - FM 3-52 - FTM 13. The training program consists of two phases: Phase 1 - Qualification, and Phase 2 - Position Training and Rating. a. Phase 1 consists of individual and team training on the installation, operation and maintenance of all ATS equipment assigned to the Tactical Tower System. The training program is designed to ensure Phase 1 training is completed within 3 months (<i>Army National Guard 2 AT's</i>) of being assigned to the training program. However, as soon as a controller demonstrates proficiency in all applicable areas, phase completion may be achieved at an earlier date. b. Phase 2 is dependent upon actual mission and the controller's ability to control "LIVE" traffic in a tactical environment. Phase 2 has no set time limit. 14. REMEDIAL TRAINING: Upon completion of phase training or rating, should an individual fail to maintain the required proficiency level, he/she will be placed on Remedial Training. If unable to successfully complete the Remedial Training in time allowed, reclassification actions will be taken.
